

Flood damage and progress of repairs  
Part deux  
27 October 2023

## JOUBERT PARK ACCESS ROAD

- 1) The Municipality started fixing the road on Monday 23 October (a week after they were supposed to start – apparently anything yellow with an engine was already booked out to fix flood damage elsewhere). *Photo: Tian van Heerden*
- 2) The road across the river and through Joubert Park is now fixed (27 October). *Photo: Richard Knipe*

## JOUBERT PARK

With the kind loan of the Kubota from Jerome Simonis, the driver from the Municipality and Richard's team, the sand has been cleared from the sloop and the water runs!  
*Photos: Richard Knipe*

## INKEERGAT

- 1) Kallie's team cleared a section of river to lead the water past the inkeergat *Photo: Kallie Laubscher*
- 2) We are now able to access the inlet. *Photo: Richard Knipe*
- 3) Using the Kubota and hard labour the guys cleared silt and rocks from the pipe as far as they could reach. *Photos: Richard Knipe*

## LEIDAM

The water is now running into the leidam (27 October). *Photo: Tian van Heerden*
